

# Volunteers

Just Neighbors uses a community clinic model to provide services to clients. Through this model, staff attorneys are able to leverage their time and expertise by supervising volunteers and interns who work directly with the clients.

This maximizes the number of clients that Just Neighbors' attorneys can help and provides volunteers the opportunity to serve their neighbors. In 2016, 154 volunteers contributed 1,696 volunteer attorney hours and 5,854 non-attorney hours.

**Volunteer hours are valued at \$400,000 almost equaling the entire budget of Just Neighbors!**

## Providing Immigration Legal Services to Those With a Legal Pathway

Over the last 20 years, Just Neighbors has served more than 10,000 clients from 130 countries by helping low-income immigrants obtain the documentation to which they are legally entitled. We believe that investing in immigration legal services positively impacts a family's overall stability in the United States. Requiring individuals to pay expensive fees for these services forces families to choose between paying for legal services or for basic needs like food and housing. Research shows that granting legal status and citizenship to immigrants increases their income level, chances of home ownership, education level and access to health care.

**Focusing on humanitarian cases, Just Neighbors staff attorneys and many volunteers serve the most vulnerable immigrants in our community, many who are:**

- refugees and asylees
- victims of domestic violence and other violent crimes
- "dreamers" (youth who arrived in the United States as children)
- those issued Temporary Protected Status (TPS) because of armed conflict or natural disasters in their homelands.

Just Neighbors is able to respond to the changing immigration legal framework because of our unrestricted resources from private foundations, donors, corporations and faith communities. As we maintain our focus on those who are least likely to get help elsewhere, we continue to have to turn away callers due to capacity limitations.
